

iFormulate

Helping You Formulate

How Can We Help You?

With our extensive range of contacts inside large and small companies in all formulating sectors, and a comprehensive network of academics and consultants, we provide our clients with tailor-made solutions. Guided by your needs, we don't offer standard solutions; instead we give you exactly what you want. Here are some examples of the sorts of things we can do for you:

- Consultancy and advice on both technical and commercial topics in the area of formulation;
- Assistance with commercialisation of new technologies and of new applications of existing technologies;
- Business and market development;
- Technology scouting and profiling;
- Generation and development of ideas for your in-house development programmes;
- Tailor-made Open Innovation Workshops and technical seminars in the field of formulation;
- Finding collaboration partners to build R&D and innovation projects;
- Bespoke in-house training as well as open training courses;
- Technical and market information updates;
- Strategic foresighting in the business and technology of formulation;
- Advice on how to benefit from public sector investment in this area.

iFormulate Ltd was founded to provide customised R&D and innovation services to companies working in the field of **Formulation Science and Technology**. We offer consultancy, project management, idea generation and development, assistance with commercialisation, market and business development, training and events.

Formulation - The Industries We Cover

Formulation science and technology adds value in industries such as **Pharmaceuticals, Food, Personal Care, Detergents & Cleaners, Inks, Coatings, Agrochemicals, Biocides and Foods**. Formulated products are complex and formulation technology often needs to be demystified. We simplify challenges in formulation and can work across all of these industries to spot opportunities to transfer ideas, technologies and solutions from one industry to another.

HOW CAN YOU WORK WITH US?

Dr David Calvert, Director
